The Management Team

From Babies to Preschool

Giggle Tots Day Nursery follows the **Early Years Foundation Stage (EYFS)**, which is how the Government and early years professionals describe the time in your child's life between birth and age 5.

This is a very important stage as it helps your child get ready for school as well as preparing them for their future learning and successes. From when your child is born, up until the age of 5, their early years' experience should be happy, active, exciting, fun and secure; and support their development, care and learning needs.

What is the EYFS Framework – why do we have one?

The EYFS Framework exists to support all professionals working in the EYFS to help your child and was developed with a number of early years experts and parents.

In 2021 the framework was revised to make it clearer with more focus on time spent interacting with your children rather than paperwork. This new framework also has a greater emphasis on your role in helping your child develop, and us creating wonderful experiences that the children may not be able to have at home.

Our staff training with the EYFS is regularly refreshed to ensure high standards, quality and knowledge throughout our setting.

Babies & Toddlers (3 months – 2 years)

Learning and development

Within our baby unit your baby will be cared for by specialist baby carers. Each of our baby unit carers look after no more than 3 babies. Our baby units are peaceful playful environments where we endeavour to make the environment as cosy and homely as possible to ensure the comfort for your baby.

Activities are mainly structured to provide exploratory and sensorial experiences, including lots of music and movement.

Our main focuses for development within the prime areas of learning are:

- Personal social and emotional development
- Communication and language
- Physical development

We focus on the above whilst monitoring the following key characteristics of learning:

- Playing and exploring – engagement
- Active learning – motivation
- Creating and thinking critically – thinking

Nappies and Wipes

We take care of it all! We provide biodegradable nappies and wipes for all babies and children at no additional cost to you. Any other brand would need to be provided by the family themselves

Transitioning to pre-school

Children that are ready for transition into the pre-school environment, this will be agreed in collaboration with the child's assessment, family and key person/manager. A transitional plan is then put in place.

Pre-school (2-5 years)

Learning and development

Practitioners care for no more than 8 children each.

Along with following the 7 areas of learning within the EYFS, our pre-school is still a play based learning environment with a balance of child and adult led activities.

Practitioners always strive to extend and challenge the learning for the children within their key group. We provide more structure within the preschool to prepare for the transition into school.

Transition from Pre-school to School

Our aim in the pre-school is to make the transition from Nursery to school as smooth as possible to ensure that our children are adequately prepared in all respects. We have strong relationships with all schools local to our Nursery and we keep in constant touch with them so that we can be sure that what we are doing within our pre-school will compliment what your child will do when they begin life at school. Your child's key person will go with your child to visit their school to ease the transition. Giggle Tots will provide a Q&A session for parents/carers prior to their child's transition dates.

Extra curriculum Activities

Baby Sign (Tiny Talk)

Baby signing is a form of pre-verbal communication. Babies understand so much before they can talk! From as early as 6 to 9 months old, babies can begin to tell you what they want, what they are thinking about and how they feel. Babies' control of their hands develops long before their control of their vocal cords and co-ordination of the movement of lips, tongue and teeth to make understood speech sounds as recognised words (often as late as 18 months).

Baby signing bridges this very wide gap – aiding communication, giving them a means to begin to understand everything! Early language development and understanding also encourages early speech as the signs are always said at the same time. We hold these sessions every Tuesday.

Play phonics

With Sammy Sounds is an interactive adventure session through role play and using sounds.

Young children have a sophisticated understanding of storytelling and a thirst for humour, slapstick and adventure. Sammy Sounds meets those desires, plus the fantasy element fuels the imagination. This combination means learning happens naturally and brings a great deal of fun and joy. We hold these sessions every Friday for Toddler and Preschool Rooms.

Bongalong

Bongalong music classes are for babies, toddlers and children up to the age of five. Fun, engaging, creative sessions for you and your child to enjoy **together**.

All sessions comprise of movement, singing, dance and drama. There is always an instrument section using beautiful percussion instruments -real instruments to create **quality** sounds. We also use a lot of props and costumes to bring songs and stories to life. *"A little piece of theatre every week."*

The way we use music, movement and drama supports the developmental stages your child/children will go through between 0-5 years. Songs and rhymes help **speech** development and language. Action songs and movement develop **co-ordination**. Music games encourage listening skills. Instruments enable **exploration** of sounds and effects. Group activity aids

confidence, communication and social skills. Props and costumes stimulate **imagination** and role-play at home. We hold these sessions every Thursday in term time.

Settling sessions

We recommend starting nursery at least 2 weeks prior to exact start date wanted. This is to ensure that your baby/child has a smooth transition into nursery. Settle sessions operate as followed:

Day 1 – Home visit, you baby/child's key person will visit you at home with a member from the management team. This is ensuring that your baby/child has a familiar face when they come into the nursery environment. Once a face has been accepted into the home, this helps to form positive attachments.

Day 2 – 2 hours within the nursery environment with parent/career staying to ensure your baby/child feels secure for the first hour.

Day 3 – 4 hours within the nursery environment with parent/career leaving for a longer period of time. This is to ensure that your baby/child can form secure positive attachments.

Key Person System

A key person is allocated to each child whose responsibility it is to closely monitor your child's progress and welfare. The Key Person will help your child to become familiar with the provision and to feel confident and safe within the setting. The 'key person system' enables staff to develop a greater bond with both the child and their parents and ensures a settled, close relationship throughout your child's time at Giggle Tots.

Your child's key person will be responsible for sharing information with you about your child. This information will be recorded in your child's communication diary and learning journey which we invite you to share with us and contribute to its development over their time at Giggle Tots.

Outdoor Learning

At Giggle Tots we place a great value and importance on learning outdoors. We are ideally situated in our local area surrounded by parks, wood, lake and duck pond which we like to explore frequently. We have weekly walks to explore the local area. Our garden has a shelter area which makes it accessible through the year.

Our garden at Giggle Tots has been designed to become an extension of our indoor learning environment, on a larger scale. We provide opportunities for mark-making, creative play, number activities and quieter areas for children to read, role-play and explore nature.

Safe & Sound

Your child's safety and security is our paramount concern, and it's vital that families and carers feel confident they can leave their children in our care, knowing they are safe. Our staff are all registered and are recruited with particular care and attention: references are fully investigated and every member of staff undergoes clearance through Disclosure Barring Services (DBS). All staff are required to register to the update service which allows employers to complete checks on the staff at any point during their employment.

No-one is allowed on the premises that are not known to the members of staff. All our nurseries operate an effective door entry system, so staff can perform checks on everyone entering the nursery. Unrecognised visitors are not allowed to enter the building.

You will be required to specify which people will regularly drop off and collect your child. If any other person is to collect your child, this must be notified to staff in advance and the individual must provide proof of identity before being admitted. Similarly, families are requested not to admit anyone to the nursery.

CCTV

We have 24-hour CCTV in operation in all our rooms and outside areas. CCTV is in place to protect both children and staff.

Ofsted Comments

Ofsted is the Office for Standards in Education, Children's Services and Skills. Ofsted report directly to Parliament and are independent and impartial. Ofsted inspect and regulate services which care for children and young people, and those providing education and skills for learners of all ages.

What Ofsted say about us! We are GOOD!!

Staff provide a varied and interesting curriculum inside and outdoors. This helps children to build skills for school and the future. Children are confident speakers in small and large groups. They articulate their feelings and express their ideas well. Young babies are eager to explore the environment around them. They point and gesture confidently and make their needs known.

Staff support children's developing literacy skills, and children enjoy looking at books independently. They recognise their names and familiar words in books, and can anticipate the end of a story. Young babies and toddlers enjoy number songs, and toddlers begin to recognise numbers. Older children can count and recognise numbers in the environment around them.

The arrangements for safeguarding are effective. All staff are knowledgeable about the signs that may indicate children are at risk of harm. They understand how to identify and report concerns. Staff work with outside agencies to help safeguard children and keep them safe. Leaders follow robust recruitment procedures and keep staff updated about safeguarding policy and procedures. Staff are alert to signs that children may be at risk of extreme views and behaviours.

Frequently Asked Questions

1. My Child has an allergy; how can you ensure they do not become exposed?

Any food that is prepared on site is done so by any person who has undergone relevant training in this area. Lists of children's allergies and dietary requirements are displayed around the premises to ensure they are not given an allergen; these requirements are also listed on each child's personal placemat. Giggle Tots follows the requirements as set out by the food's standard agency.

2. How do I know about my child's daily routine?

Each parent is given verbal feedback at the end of each session, as well as being given a diary detailing how your child has been throughout the day. For new children settling, a more frequent communication is given via telephone or email. We do not use communication books for our pre-school children. This is because we encourage conversation with the children to inform you about their day.

3. How do you prepare my child for school?

Transition is not just about the child being ready for school but it also about the parent being ready for school! We hold parents' workshops during the summer term to inform you of what to expect when your child goes to school. We answer any questions or concerns you may have to ensure that there is a smooth transition process. Where possible the key person would take your child on a visit to their new school. We will incorporate many activities that would involve learning about a school set up, wearing uniform, encourage the writing of names and independence. We run an early phonics session every morning to get the children used to their letters and sounds. Links are set up with all local schools, where share information packs from these schools with our families, some schools send us uniform so the children will know what they will be wearing.

4. Are you open on Bank Holidays and any other Holidays?

Our Nurseries are open 51 weeks of the year. Our Nurseries will be closed on all Bank Holidays and approximately three – four days in between Christmas and New Year. We are not able to give concessions in exchange for any Holidays.

5. How often do you review your fees?

Our fees are reviewed annually usually in January and we calculate our fees based on operational costs for the setting. All families are given a minimum of 1 month's written notice of any fee changes.

6. When will my child be eligible for the Free Early Years Education Grant Funding?

Your child will be eligible for the Nursery Educational Grant the term after your child's 2nd or 3rd birthday.
